

Orion

We have designed Orion Corporation's new and renovation projects for decades. In Turku and Espoo pharmaceutical factory properties, the design tasks have been both renovation and new projects, including manufacturing, laboratory and research facilities. Most of the projects have been clean rooms. In addition, we have designed a new raw material manufacturing plant for Fermio Oy in Hanko and laboratory facilities for the pilot plant in Espoo. Salo packaging plant and storage facilities are also designed by us.

Orion is a globally operating Finnish pharmaceutical company.
