

## InfraCity

The energy-efficient office building is Turku Science Park's first project on the other side of Helsinginkatu in Turku, Finland.

InfraCity is designed for Turku Energia and complies with the highest Platinum level of the Leed environmental certificate. The building incorporates a lot of new energy technology, a high indoor air rating and an adaptable multi-space environment.

The impressive façade of the building is made of embossed concrete elements.

The owner of the building is Turku Technology Properties and the main contractor was Rakennustoimisto Lundén.
