

Hotel Cahkal

A new Boutique hotel in beautiful and wild Finnish Lapland with views to Saana mountain.

The complex around the courtyard consists of three buildings, blending perfectly with the foothills. The buildings are wood structures. The placement and orientation of the buildings follow the contours of the terrain.

There is a restaurant serving local food in the hotel building. Downstairs there is also a lounge where you can enjoy the fireplace and the peaceful atmosphere of the hotel. A separate sauna building is in the hotel's courtyard.
